At this time in the world, it is imperative for every Christian student to research in the past to learn what is causing the assault on our Christian values. This work is a small attempt to try and help search for answers.

"A sound mind, and one which does not expose its possessor to danger, and is devoted to piety and the love of truth, will eagerly meditate upon those things which God has placed within the power of mankind, and has subjected to our knowledge, and will make advancement in them, rendering the knowledge of them easy to him by means of daily study."
Irenaeus Against Heresies Book 2

Thank you again and God bless,

Ernie
